GOUTAM GUPTA

Full-Stack MERN Architect & Android App Developer

Kolkata / Purulia, West Bengal | +91 8343957187 | goutamgupta605@gmail.com | linkedin.com/in/goutam-gupta | github.com/G870-ops

PROFESSIONAL SUMMARY

Innovative Full-Stack MERN Architect and Native Android Developer with proven expertise in building scalable, real-time web applications and high-performance edge AI mobile systems. Proficient in React.js, Node.js, Express, MongoDB, Java, and Kotlin. Demonstrated success architecting microservices, RESTful APIs, asynchronous pipelines, and secure cloud integrations with a strong commitment to modern software engineering best practices, optimized state management, and clean code principles.

TECHNICAL SKILLS

- **Frontend Development:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Vite, Responsive UI/UX
- **Backend & APIs:** Node.js, Express.js, RESTful APIs, JWT Authentication, Microservices Architecture, Postman, PHP
- **Mobile & Edge AI:** Android Studio, Java, Kotlin, TensorFlow Lite (TFLite), OpenCV, Firebase Authentication & Firestore
- **Database Systems:** MongoDB Atlas, MySQL, NoSQL Document Design, Relational Database Modeling, Schema Optimization
- **Tools & Engineering:** Git, GitHub, VS Code, Linux/WSL, Agile Development, Non-blocking I/O, Shunting-yard Algorithms

FEATURED ENGINEERING PROJECTS

Full Stack Food Delivery Platform (MERN) [React.js, Node.js, Express, MongoDB Atlas, Stripe API, Tailwind CSS]

- Architected an end-to-end food ordering ecosystem with real-time order telemetry, secure Stripe payment gateway, and reactive UI.
- Engineered resilient REST API endpoints with JWT authentication, role-based admin controls, and MongoDB aggregation pipelines.

PBIS (Pig Breed Identification System) - Edge AI Mobile App [Android Studio, Java, OpenCV, TensorFlow Lite (INT8 Quantized)]

- Engineered an offline computer vision mobile solution achieving ~45ms inference latency for real-time live livestock classification.
- Integrated INT8 quantized neural network weights reducing mobile RAM consumption to under 25MB with high classification accuracy.

FlatBookingApp (StudentStay Accommodation) [Android Studio, Kotlin, Firebase Auth, Cloud Firestore, Role-Based Routing]

- Engineered dual-tenant rental accommodation application serving student tenants and property landlords with real-time sync.
- Structured real-time data persistence with Cloud Firestore security rules, live listing updates, and instant query resolution.

Sci-Fi Scientific Calculator Android App [Android Studio, Java, Shunting-yard Algorithm, Custom BigDecimal Precision Engine]

- Designed high-precision mobile calculation engine resolving complex algebraic expressions, matrix operations, and stats.
- Optimized rendering pipeline for sustained 60 FPS UI performance with an ergonomic interstellar aesthetic (Released on GitHub).

EDUCATION

Bachelor of Technology (B.Tech) - Information Technology
Kalyani Government Engineering College (KGEC) / MAKAUT | 2023 - 2026 | 6.55 CGPA (Up to 8th Semester)

Diploma in Electronics & Telecommunication Engineering (ETCE)
Purulia Polytechnic (WBSCTE) | 2020 - 2023 | Score: 79.9%

Higher Secondary (10+2 Science)
Sodepur Colliery High School (WBCHSE) | 2020 | Score: 84.4%

HONORS & CERTIFICATIONS

- WBJELET Engineering State Entrance Exam: General Rank 170 | OBC Rank 26 (Top Percentile Placement)
- Robo Fight Competition: 3rd Position Podium Placement representing Purulia Polytechnic in tactical robotics combat
- Professional Full Stack Certification: Certified in Modern Web Frameworks, CSS/Bootstrap, PHP, and JavaScript
